

We are a leading company in the development and manufacture of high-quality pharmaceutical testing equipment. As an international group of companies, we market our system solutions and the corresponding services around the world with a great deal of success.

In order to strengthen our UK service team in Southern UK we are looking for a

## Laboratory Equipment Service Technician (*full-time*)

### Your Challenge

- Maintenance, installation, and GMP-compliant qualification of tablet testing equipment and systems
- Training our clients in handling our systems
- Receipt of fault messages and performance of repairs
- Supporting the sales department on technical questions
- Occasional help with organizing and running user seminars and with the preparation of documentation

### Your Profile

- Committed, flexible, very resilient, and able to work independently
- Pleasure from working with a local and international client base
- Completed (technical) chemical training, preferably laboratory chemist, chemical technician, technical chemical assistant or corresponding laboratory experience
- (preferably in the pharmaceutical industry)
- Technical understanding of and experience with modern cGMP requirements
- Enjoys regular travel to include some to European clients
- Good MS Office knowledge
- Place of residence ideally between the Midlands and the M25 corridor

### Your Prospects

- Responsible, diverse tasks
- Independent, proactive work in a very lively international environment
- Flexible work hours and modern terms of employment
- Company car
