

We are a leading company in the development and manufacture of high-quality pharmaceutical testing equipment. As an international group of companies, we market our system solutions and the corresponding services around the world with a great deal of success.

In order to strengthen our Italian service team in northern Italy we are looking for a

Laboratory Equipment Service Technician (full-time)

Your Challenge

- Maintenance, installation and GMP IQ, OQ and PVT) qualifications of devices and control systems for tablets to be performed at our customers in northern Italy and Canton Ticino (Switzerland)
- Training our clients in handling our systems
- Receipt of fault messages and performance of repairs
- Supporting the sales department on technical questions
- Occasional help with organising and running user seminars and with the preparation of documentation

Your Profile

- Technical-chemical or electro-technical training with experience of technical assistance on scientific instrumentation of pharmaceutical laboratory
- Committed, flexible, very resilient, and able to work independently
- Pleasure from working with a local and international client base
- Technical understanding of and experience with modern cGMP requirements
- Enjoys regular travel (predominantly in northern Italy), occasionally abroad
- Mother tongue Italian and good English knowledge. Additional languages are an advantage
- Good MS Office knowledge
- Place of residence ideally between Milan / Bergamo / Como / Varese

Your Prospects

- Responsible, diverse tasks
- Independent, proactive work in a very lively international environment
- Flexible work hours and modern terms of employment
- Company car, mobile phone and notebook
